2. Those who have not received personal communication of exclusion from the selection must present at the venue, on the day and at the time indicated below, with a valid identity document. EU citizens must present their passport or an identity document issued by their country of origin. Those from countries outside the European Union must present their passport.

The absence of the candidate from the tests will be considered as renouncement to this selection, whatever the cause.

3. The list of admitted candidates will be made known to candidates with a notice that can only be consulted on the PICA platform, in accordance with the procedures laid down in art. 8.
4. In case of cancellation of a test, the call for the new date will be made only for those present at the cancelled test, whatever the cause.
5. Depending on the number of applications received, the Administration reserves the right to provide for a pre-selection test, which may also be entrusted to a specialised external company or body. The pre-selection may also be conducted by means of multiple-choice questions aimed at detecting logical ability, aptitude for problem-solving, comprehension of texts and knowledge of the subjects listed in Annex A.

The score obtained in the pre-selection test does not count towards the final merit ranking.

Disabled persons with a disability equal to or greater than 80% are exempt from sitting any pre-selection test.

Candidates who obtain a mark of at least 21/30 and are among the first 30 candidates in the pre-selection ranking will be admitted to the test. Candidates of equal merit who are suitably placed in the ranking will also be admitted.

6. The **written exam**, with theoretical-practical content, will focus on topics related to the activities to be carried out within the framework of the Project, as indicated in Annex A.

The written exam is processed digitally by means of the equipment provided to take the exam.

The maximum mark for the written exam is 30 points, the pass mark is 21/30.

The Board prepares three possible essay topics. These topics are secret, drawn up digitally, and their disclosure is prohibited. At least two candidates at a time select essay topics by drawing lots.

For the written exam, candidates are not permitted to bring into the examination room any writing paper, handwritten notes, books or publications of any kind. Only dictionaries and law books

authorised by the Board may be consulted. Candidates cannot bring mobile phones or other mobile devices suitable for storing or transmitting data or carrying out mathematical calculations. During the test candidates may not communicate with each other or with the outside world in any way, on pain of immediate exclusion from the competition. In the event of any breach of these provisions, the board of examiners will order immediate exclusion from the selection procedure.

7. The list of candidates admitted and not admitted to the interview and the marks obtained will be made known with a notice that can only be consulted on the PICA platform, in accordance with the procedures laid down in art. 8.
8. The **interview**, conducted partially in English, is public and will be conducted, in accordance with the procedure established by the Board of Examiners, online or in a classroom open to the public with a capacity suitable to ensure maximum participation of those interested in attending the exam. In the case of online interview, appropriate arrangements will be made to ensure the identification of participants, the regularity and integrity of the exam, the security of communications and their traceability.

Should the interview be conducted online, candidates are responsible for the quality and continuity of the signal coming from their workstation. The Board may at any time order the exclusion of a candidate due to problems that make it impossible to test and control the environment in which the test is held.

The interview, conducted partly in English, will focus on the topics indicated in Annex A.

The interview will also assess the candidates' proficiency in English, knowledge of the main IT tools used and personal aptitudes. For candidates with non-Italian citizenship, the interview will also be aimed at ascertaining adequate command and knowledge of the Italian language.

Before the beginning of each session of the oral test, the Board determines the questions to be put to the individual candidates by drawing lots.

The maximum mark for the interview is 30 points, the pass mark is 21/30.

9. At the end of each session devoted to the interview, the Board draws up a list of the candidates examined with the evaluation of the interview. This list is posted on the door of the examination venue, where it remains published until the end of the day and it can be consulted on the PICA platform, with the modalities referred to in the following art. 8.
10. The **assessment of qualifications** is carried out after the interviews, within 30 (thirty) days of the last session of interviews. For each applicant, the Board of Examiners draws up a summary sheet, which is an integral part of the minutes, in which the qualifications for the specific categories are mentioned analytically with the corresponding marks awarded and the final score. Should the sum of the marks attributable to an individual category of qualifications be higher than the maximum, the maximum mark for the specific category is awarded.
